THE BUSINESS ASSOCIATION OF RICHMOND DONATES \$10,000 IN SUPPORT OF TRADITIONAL CHINESE MEDICINE AT RICHMOND HOSPITAL

The Business Association of Richmond donated \$10,000 at the association's inauguration dinner at Continental Restaurant on May 1 in support of Traditional Chinese Medicine at Richmond Hospital. In April this year, the Provincial Government announced health care services at Richmond Hospital will be provided in a culturally sensitive manner, with recognition of the importance of traditional Chinese medicine services in the local community. Donated funds will support some of the required public consultation costs with respect to Traditional Chinese Medicine.

Business Association of Richmond is dedicated to engage businesses and individuals in commercial activities in Richmond.
