BUDDHIST COMPASSION RELIEF TZU CHI FOUNDATION CANADA DONATES \$20,000 TO PURCHASE A VEIN VIEWER FOR RICHMOND HOSPITAL

Buddhist Compassion Relief Tzu Chi Foundation Canada presented Richmond Hospital Foundation with a cheque for \$20,000 to support the purchase of a vein viewer at Richmond Hospital. Members from the organization visited Richmond Hospital's Intensive Care Unit (ICU) to see the impact of their donation and how this state-of-the-art equipment instantly provides visualization of a patient's veins, helping our medical teams safely provide IV treatments and improving patient care. To date, the Tzu Chi Foundation Canada has generously contributed more than \$370,000 in support of local health care at Richmond Hospital.
